

# Paperplus®— When It Comes to Paper Packaging, Get a Classic

- Economical void-fill using single-ply paper
- Superior cushion and protection
- Resists tearing and perforation
- Recyclable and reusable
- Formed on-demand
- Easy to use

**STORO***pack*

# PAPERplus®

## Durable, Strong, Protective and Versatile For All Packages

The PAPERplus patented crimping technique creates an ultra-strong mattress that provides the bulk and durability needed to absorb, cushion and protect heavy, fragile, or awkward items—or deliver superior cushioning and void-fill for more standard packaging applications. PAPERplus has been proven to provide a thicker pad while delivering significantly better compression strength than competitive paper products. Quite simply, you get better protection using PAPERplus.

### Versatile Functionality

Void fill

Cushion and protect

Block and brace

Wrap

Criss cross – Prevents puncturing of boxes. Ideal to cushion and protect bulky or awkward items.

Fold over – Cushion fragile items with protective padding.

Coil – Superior support to brace and “nest” heavy products.

S-shape – Cushions and eliminates abrasion between products

Block and Brace – Strong and durable to hold packages in place

### MULTIPLE PAPER CHOICES FOR UNLIMITED PACKAGING NEEDS

Weight	Paper Type/Length	Packaging Volume Per Roll (cubic feet)	Square Footage Range (sq. ft.)
43#	Econo (1,600)	40 - 65	1,965
60#	1-Ply (900 - 1,350)	85 - 110	2,214 - 3,321
30#	2-Ply (900 - 1,350)	75 - 125	2,214 - 3,321
43#	2-Ply (900 - 1,300)	90 - 135	2,214 - 3,198

### The PAPERplus Crimp Benefit: Better protection. Fewer pads.

The PAPERplus pad's high level of integrity resists tearing and perforation, and ensures stability in your packaging.

A simple compression test illustrates the power of the pad. With (2) five pound bricks lying on four PAPERplus pads versus the competitor's four pads, PAPERplus clearly shows less compression loss. That means your packages will be more stable and your costs will be lower. The bottom line: thicker pads, superior quality, more strength—all with using less paper to save you money.

PAPERplus®

The Competition

One sheet of paper transformed into a PAPERplus mattress is strong. Two sheets of paper transformed into a PAPERplus mattress, well, let's just say that you've upgraded to the extra-firm, extra-strong, ultra-protective model. Plus, our two-ply sheets come pre-glued on a single roll for quick and easy loading.

*Environmentally friendly kraft paper contains recycled and reclaimed industrial waste. Recyclable and reusable.*

# The Many Looks of the Classic

Packaging requirements vary from business to business, and from day to day. That's why the PAPERplus Classic Line includes four different equipment models as well as flexible features and add-on components that you can adjust as your packaging requirements fluctuate. In addition, for high volume packaging, a Storopack PAPERplus overhead delivery system can convey PAPERplus mattresses to multiple dispensing stations or speedlines.

**ADJUSTABLE AND FLEXIBLE:**  
180° directional chute let's you move and adjust to different operator height and work environments — even against a wall.

**SAFETY FIRST:** Safety features include two easily accessible emergency stop buttons located on the outside of each machine to ensure that your employees are always protected... just like your product.

## CLASSIC VERTICAL

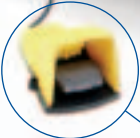

Boasting the smallest footprint of the Classic Line, the popular vertical model is ideal for environments where space and speed are premium.

- Size:** 70" H x 36" W x 36" D
- Weight:** 400 lbs
- Power:** 110v
- Speed:** Standard – 42 feet per minute  
High speed – 120 feet per minute
- Paper:** Single or double-ply

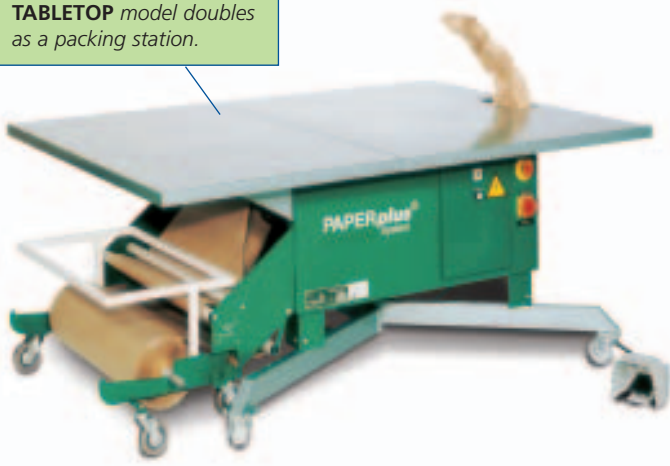

**Curved Chute** – This optional chute directs paper pads out and down for easy storage bin loading.

**Optional Paper Tray** – The paper tray keeps pads accessible for continued production.

**HANDS-FREE OPERATION:**  
Operators are even more productive using the foot pedal to control output – leaving hands free for packing

**TABLETOP** model doubles as a packing station.

## TWO CLASSIC TABLETOP MODELS

The Classic Tabletop doubles the functionality by dispensing PAPERplus pads directly to a tabletop packing station. Available in two sizes, the Classic Double Tabletop provides 75% more workspace.

- DOUBLE TABLETOP**
- Size:** 33" H x 55" W x 75" D
  - Weight:** 430 lbs
  - Power:** 110v
  - Speed:** 42 feet per minute
  - Paper:** Single- or double-ply

- SINGLE TABLETOP**
- Size:** 33" H x 38" W x 62" D
  - Weight:** 375 lbs
  - Power:** 110v
  - Speed:** 42 feet per minute
  - Paper:** Single or double-ply

**Optional Storage** – A convenient rack and/or storage tray makes work materials more accessible.

**ONE WAY EXIT CHUTE:**  
All PAPERplus models are equipped with a one way exit chute that reduces jams and ensures consistent operation.

## CLASSIC HORIZONTAL

The Classic Horizontal extends over your packing station to conveniently and rapidly deliver PAPERplus pads where you need them, when you need them.

- Size:** 70" H x 30" W x 60" D
- Weight:** 350 lbs
- Power:** 110v
- Speed:** Standard – 42 feet per minute  
High speed – 120 feet per minute
- Paper:** Single- or double-ply

## OPTIONAL PRODUCTION ENHANCING ACCESSORIES

**Paper Cart** – Keep production moving when you have a second roll of paper mounted to the Tabletop or Horizontal models with this optional paper cart.

**Paper Dolly** – Make loading easier on any Classic model with an easy lift paper dolly.

## The Classic Line Is A Productive Line

Ergonomically designed

Ease of operation

On-demand production

Easy to load

Safe

Quiet and clean

Proven reliability

Flexible equipment options

### MOBILITY AND CONTROL:

With nine modes of operation, the programmable and movable control pad gives operators full control of production, even from a distance.

Produce pads on-demand or program production for multiple stations and/or multiple orders. This capability enables packers to be highly efficient, with minimal downtime. Units can be "locked-out" to simplify operators use.

**PAPERplus® —  
NOTHING LIKE A CLASSIC**

**The PAPERplus pad gives you the strength and durability you need to protect your packages, while the Classic Line of PAPERplus equipment models provide versatility and reliability in meeting your packaging needs. The four Classic models are engineered to be compact and efficient to address various packing station specifications. Your employees will appreciate the ease of operation and prominent safety features. Whether you need to protect and cushion, or wrap and fill, there's nothing like a Classic.**

**THE STOROPACK SERVICE ADVANTAGE**

While we're always working on ways to improve the packaging inside the box, we know that what happens outside the box is just as critical to your operation. At Storopack, service isn't an afterthought; it is at the core of our business. Our skilled representatives and service technicians provide the knowledge and the responsiveness to ensure your packaging systems are operating at peak efficiency.

We'll be there for you fast. With over 20 facilities in North America and more than 70 combined manufacturing and distribution locations worldwide, swift, attentive service is our norm.

**REDUCE – REUSE – RECYCLE**

Paperplus is made from 100% natural, recycled Kraft paper that can be used over and over. It is a biodegradable and renewable resource, and when it needs to be discarded, it is accepted in recycling programs with cardboard or newspapers. Your customers are sure to appreciate your environmentally conscious approach to packaging.

**WHATEVER YOU NEED TO PACK: THINK STOROPACK**

- **PELASPAN-PAC®** Loose-fill
- **PAPERplus®** Paper cushioning material
- **AIRplus®** Air pillows
- **PAD LOC™** Moldable pads
