endurabubble

tri-web, superior strength, puncture resistant

bubble

ENDURABUBBLE TRI-WEB CONSISTS OF DURABUBBLE^{RP} WITH A SHEET OF POLYETHYLENE LAMINATED TO THE TOP OF THE BUBBLE. THE RESULT IS A VERY STRONG CUSHIONING AND SURFACE PROTECTION PRODUCT THAT PROVIDES ADDITIONAL PUNCTURE-RESISTANCE AND BUBBLE INTEGRITY.

KEY FEATURES

FEATURES	ADVANTAGE	BENEFITS
High puncture resistance	Material resists puncture better than regular bubble products	Protects the packaged product
Increased rigidity	Extra polyethylene layer makes the material stronger	Products have an extra layer of protection
Durabubble ^{RP} 's superior burst strength	Bubble withstands pressure and abuse	Maximum product protection
100% recyclable	Environmentally friendly	Never needs to go to a land fill
Tacky film surface	Product does not move or slide when packed or during shipment	No broken parts
Good clarity	Makes product more visible	Can distinguish your product
Excellent air retention	Bubble does not go flat	Continued protection
Good tensile strength	Gives product superior protection	No damage
CFC Free	Ozone friendly	Does not deplete the ozone layer

Endurabubble has superior burst strength. The bubble withstands pressure and abuse, giving maximum product protection. It is also 100% recyclable and is Ozone friendly. Endurabubble has a tacky film surface so the product remains stationary when packed or during shipment.

TARGET MARKETS

Target markets include: Musical instruments, Leather/Fabric Furniture, Metal Sheeting Automotive Parts, Giftware.
