

CAPABILITIES PROFILE

High Speed Security Tag Labeler

INDUSTRY

Electronics
Computer Hardware & Software

PRODUCTS

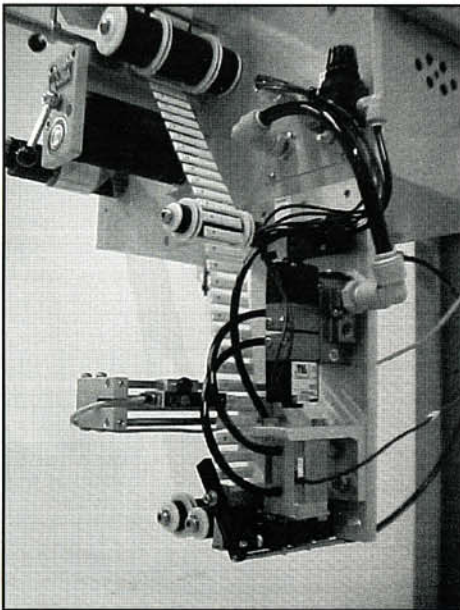

Flat Surfaced

APPLICATION

Top/Side/Bottom

PRODUCTION RATE

Up to 400 PPM

This custom EAS applicator features a large 20" diameter roll capacity and high-speed tamp/blow applicator module.

The Q41 EAS is capable of dispensing all Sensormatic (including Ultramax) as well as Checkpoint (R.F.) security tags. Changeover is quick and easy between the two most commonly used tags.

An optional wipe-on module can be purchased for inflow labeling.

The Q41 labels at speeds up to 400 ppm while maintaining accuracy and reliable performance.

The microprocessor features 20 label presets, touchpad controls, product and label counters and line speed compensation.
